

Authorization for CDC Classroom Google Drive

There will be a Google Drive for the Mason Kids Club. This drive will include pictures and videos from the classroom. This is a way for the classroom to share activities with our families, as well as a way for teachers to store evidence of growth and development. Names and identifying information of the children will not be part of the Google Drive.

For confidentiality purposes, the drive will be administered by the classroom teachers and will be shared with the CDC administration team. Parents will be invited via a gmail account. (If you do not have a gmail account and would like access to the pictures, it is easy and free to create one!)

Access will be granted only to parents of current students and the classroom and administrative team at the CDC. For your knowledge, a different Google Drive will be utilized in future years to maintain confidentiality. Should a family member other than a parent (for example a grandparent) wish to have access to the Google Drive, parents may bring this request to the classroom team and the request will be considered.

By signing this authorization, you are agreeing to maintain the security and confidentiality of the pictures and videos which it contains. These may not be posted to social media or shared via email. For additional questions, please discuss with the classroom or administrative team.

Erin Geiger,

GMU CDC Assistant Director

I would like access to the _____ classroom Google Drive, and will not share contents via social media or via email.

Child's Name: _____

Parent Signature: _____

Email: _____

Parent Signature: _____

Email: _____
